The IESAV Bachelor in Performing Arts – Concentration: Theater is a comprehensive program that offers a deep dive into the multifaceted world of theater. Students will explore a wide range of disciplines, including dramaturgy, directing, acting, technical theater, choreography, scenography, and production design. The program also fosters creativity and innovation by encouraging students to write and direct their original works.

Program Overview

The Bachelor in Performing Arts – Concentration: Theater is a six-semester, 180-credit program that offers a thorough education in theater arts. It combines theoretical knowledge with practical experience through lectures in theater history, art history, dramaturgy, and theater analysis and criticism. Students will participate in hands-on workshops in writing, staging, acting, dance, dramatherapy, mime, puppetry, musical theatre, and more. In their final year, students will work closely with mentors to develop and stage their original short play.

Courses are conducted in a multilingual environment, with instruction provided in Arabic, English, or French.

Our Creative Spaces and Tools

IESAV students bring their stage creations to life in a stimulating work environment, enjoying privileged access to dedicated theater spaces. From the scenography workshop, where the most ambitious sets are crafted, to the Béryte Theater, a true showcase for performances, along with versatile rehearsal rooms and a study room equipped for research, students have the necessary tools (lighting equipment, sound, props, costumes, etc.) to explore all facets of theatrical art. Whether designing a costume, developing a staging, or refining an acting performance, the institute fosters an environment of experimentation and artistic fulfillment.

**Atelier Professionnel de l'IESAV (IESAV Professional Lab)**

The IESAV Professional Lab serves as a bridge between IESAV students and the professional audiovisual industry. Our team carefully selects the most qualified profiles from both current students and alumni to meet the specific needs of companies. We provide personalized support, helping our students build networks and secure professional opportunities aligned with their aspirations. For companies, the Professional Lab is a hub of creative and dynamic talent, connecting recruiters with the most promising candidates.

International Exchange Programs
