

Regulations for Admission or Transfer in Honors and Regular Classes

Following the results of USJ common admission, an ad hoc committee chaired by the Dean establishes a list of students authorized to enroll in the Honors Class.

At the end of the first and second semesters, a general ranking of the students of each class is established based on their results.

- Any Honors Class student with an average grade below a threshold set by an ad hoc committee chaired by the Dean is automatically transferred to the Regular Class.
- Any Regular Class student with an average grade surpassing a threshold set by the ad hoc committee is invited, at their discretion, to transfer to the Honors Class.
- Any Honors Class student may choose to transfer to the Regular Class if they wish.
