IoT-Leb: Internet of Things Made for Lebanon

Thursday March 9, 2017, 1:30 PM - 7:10 PM

Jean Ducruet Auditorium
Campus of Science and Technology, Mar Roukos

IoT-Leb is the first seminar on the Internet of Things in Lebanon. It aims to foster multi-stakeholder collaboration by bringing together Lebanese institutions, universities, funding and incubating partners, and industrials who are involved in IoT.
