

Joumana Estephan Yeretizian, PhD

Joumana is an experienced biostatistician with over 20 years of research experience in the health sector particularly in Lebanon. She has a strong background in both quantitative and qualitative analysis methods. Her research interests lie in designing and analyzing epidemiological studies, exploring and assessing public private partnerships and strengthening and optimizing health information systems. She has experience in analyzing and validating health data in the Lebanese context and contributed to 2 books on national health statistics in Lebanon. Joumana also provides expert consultancy services for local and international NGOs including UNHCR and WHO.

In addition to her teaching and research roles, Joumana currently serves as the Director of the Center for Collaborative Research Initiatives in Public Health (CRIPH) at ISSP. She has a PhD degree from the Doctoral School of Management and Economics, at the University of Nantes, France, a ScM from the Johns Hopkins University School of Hygiene and Public Health and a BSc from the American University of Beirut.
