

Ibrahim Bou Orm, MD, PhD

Ibrahim Bou-Orm holds an MD from the Saint Joseph University of Beirut, an MPH from the American University of Beirut (AUB), and is a PhD from Queen Margaret University – Edinburgh (UK).

He is currently an Assistant Professor of Public Health at the Faculty of Medicine (FM) and ISSP. Ibrahim's current research focuses on investigating health systems in fragile and conflict-affected settings in the Middle East and Africa, and explores the epidemiology of Non-Communicable Diseases (NCDs). He previously worked for the Lebanese Ministry of Health as Public Health consultant on NCD Prevention and Control and Refugee Health. Ibrahim is also an Assistant Professor of Global Health and Development at IGHD Edinburgh (UK) and Fellow of the UK Royal Society of Public Health.
