ABOUT THIS PROGRAM

The HR and AI Workshop equips HR professionals with the knowledge and practical understanding needed to navigate the growing role of Artificial Intelligence across HR functions and organizational structures.

Designed for HR professionals and decision-makers, the workshop explores the evolution from traditional ERP systems to HRIS and AI-driven solutions, highlighting how technology is reshaping the role of HR within organizations.

Participants will explore AI applications across HR functions, frequently used AI tools, and the impact of AI integration on organizational structures while developing a more strategic approach to technology-enabled HR practices.

By the end of the workshop, participants will be better equipped to make data-driven decisions, improve HR efficiency, address ethical considerations and potential risks, and contribute to a more innovative and inclusive workplace.

MEET YOUR TRAINER

Dr. Bahige Chaaban

Dr. Bahige Chaaban is a highly experienced professional in Human Resources and Information Technologies, boasting over two decades of expertise. His career is distinguished by a unique combination of HR and information systems knowledge, with a recent focus on the impact of AI on companies and HR leadership. He has an impressive academic background, with multiple degrees from St. Joseph University of Beirut and a Doctorate in Business Administration from Grenoble Ecole de Management. His doctoral research focused on the impact of HR on ERP implementation. Additionally, he is fluent in Arabic, French, and English. Dr. Bahige Chaaban is currently the HR Director at a reputable company, overseeing operations in both Riyadh and Beirut. Before this role, he served as the HR Director at United Company for Central Market Lebanon, where he was responsible for setting the strategic vision and managing HR operations. He also held significant positions at Fransabank in Lebanon, further solidifying his extensive experience in the field. Dr. Bahige Chaaban is actively engaged in academia as an instructor at St. Joseph University (USJ). Beyond his professional roles, he is deeply involved in community initiatives and is a founding member of the USJ Alumni in Saudi Arabia. His commitment to education and community development highlights his dedication to both professional and societal growth.

WHO SHOULD ATTEND

This workshop is designed for professionals seeking to understand and leverage AI to strengthen HR practices, decision-making, and organizational effectiveness:

- HR managers and HR professionals
- HR directors and organizational leaders
- Talent management and recruitment professionals
- Learning and development professionals
- HRIS and HR technology specialists
- Managers and decision-makers involved in HR transformation and AI integration

CERTIFICATE AWARDED

Upon successful completion of the program participants will receive a certificate delivered by the Professional Training Center at USJ.
